

Effortless Heavy Lifting, Move Dies with Ease!

Streamline your die-handling operations with the Broce Die Handler, a durable, heavy-duty forklift attachment designed to make transporting die safer, faster, and more efficient. Built from solid welded steel, this rugged attachment is engineered for maximum strength and longevity, ensuring reliable performance in demanding industrial environments.

DIE HANDLER

KEY FEATURES

- Heavy-Duty Welded Steel Construction
- Four-Sided Fork Pockets - Easy mounting from any direction
- Designed for both Gas & Electric Lift Trucks
- Customizable Sizing - Ranging from 32" x 32" to 48" x 48"
- Hydraulically-Powered Drawbar delivers equal force in both directions
- Enhanced Safety & Efficiency - Reduces manual effort, improving operator safety and workflow efficiency

HOW IT WORKS

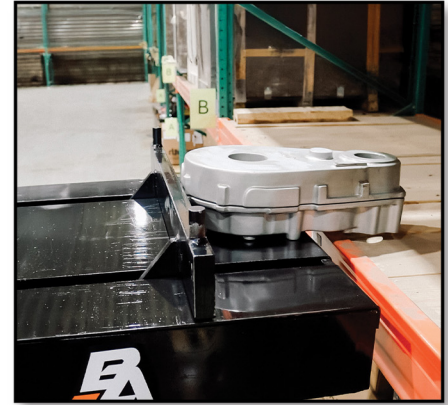

With fork pockets on all four sides, the Broce Die Handler offers unmatched versatility, allowing operators to attach it in any configuration to suit the specific needs of the job. A high-powered hydraulic motor drives the drawbar with equal force in both directions, ensuring smooth and controlled movement. Whether using a gas or electric lift truck, this attachment integrates seamlessly into your material handling system.

As you approach the die, align the drawbar with the center of the die. Secure your die to the drawbar.

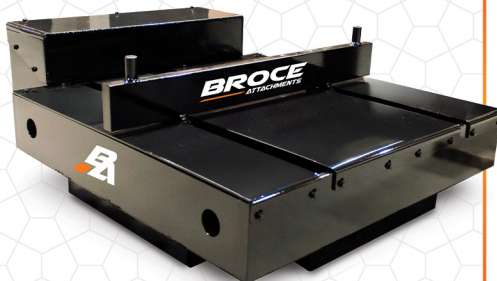

Engage the hydraulic motor to drive the drawbar back, pulling the die onto the platform. Transport your die to its designated spot.

To remove, unsecure the die from the drawbar. Use the drawbar to push the die off the platform and into its new spot.

MOUNTS ON ANY FORKLIFT

Available in a range of customizable sizes from 32" x 32" to 48" x 48", the Broce Die Handler is built to accommodate various die sizes and weights, making it an essential tool for manufacturers, machine shops, and industrial facilities that demand precision and safety in their die-handling processes.

12V & 24V Hydraulic Power Packs available for lift trucks without hydraulic function.

Die Handler - Single Hydraulic Function

Model No.	Capacity @ 24" L.C. (lbs.)	Length (in.)	Width (in.)	Height (in.)	Approx. Weight (lbs.)
DH3236-20	2-3000	32	36	9.625	575
DH3648-20	2-3000	36	48	9.625	800
DH3648-40	4-5000	36	48	9.625	1000
DH4848-40	4-5000	48	48	9.625	1125
DH3648-60	6-7000	36	48	11.625	1200
DH4848-60	6-7000	48	48	11.625	1325

*Custom Dimensions Available

The Broce Die Handler is the perfect solution for businesses looking to improve safety, efficiency, and versatility in die transportation - offering a robust, customizable, and easy-to-use material handling solution.
